

NOBLE NANNY

www.noblenanny.com

Dear Client,

Thank you for your interest in Noble Nanny, Inc. Noble Nanny has been in business since 1999. I started this company because throughout the years I've had my share of nanny horror stories, from nannies that have never showed up to those who ignored my crying baby.

Finding a Nanny or Housekeeper is a very time consuming and frustrating process. When you work with our placement staff you will be assured the personal attention that you deserve. We have built our reputation on providing individualized service so crucial to you and your family.

Once we receive your application you will work with an experienced professional who will get to know you and your family's needs. We will also provide you with the necessary paperwork for interviewing candidates, negotiating salary and benefits, and entering into an employment contract with your domestic professional if you feel the need to do so.

Noble Nanny can also assist you in hiring part- time Babysitters, Housekeepers, Baby- nurses, Household Managers, Chefs, and Personal Assistants.

We pride ourselves on giving you the personal touch in all our services. What distinguishes Noble Nanny from other agencies is our round- the- clock service and our large pool of caregivers, which enables us to send you more applicants than other agencies. Rest assured that any candidate we send to you we will have personally interviewed, and their references will have been thoroughly checked.

In addition, we work with a background company that provides current information directly from civil, county, state, and criminal court system databases that are updated daily.

Please feel free to call and familiarize yourself with our service. We look forward to working with you and your family. Noble Nanny will provide you with our utmost effort to find you a perfect match and a lasting placement.

Warm Regards,

Lisa Meltzer
